

Universal Serial Breakout Scheme

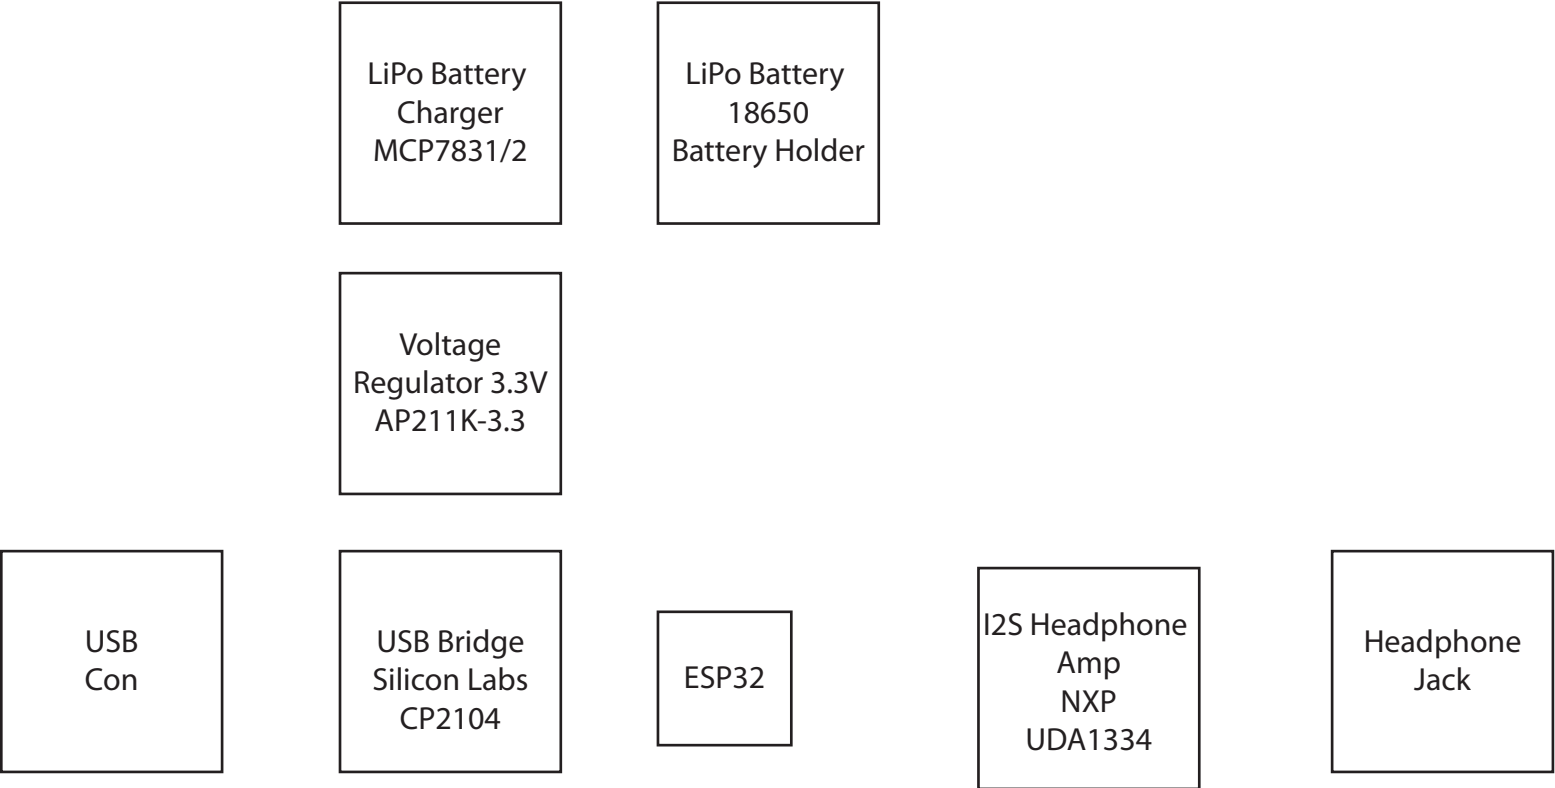

Each module has it's own brain
Basic serial communication to the Axo core

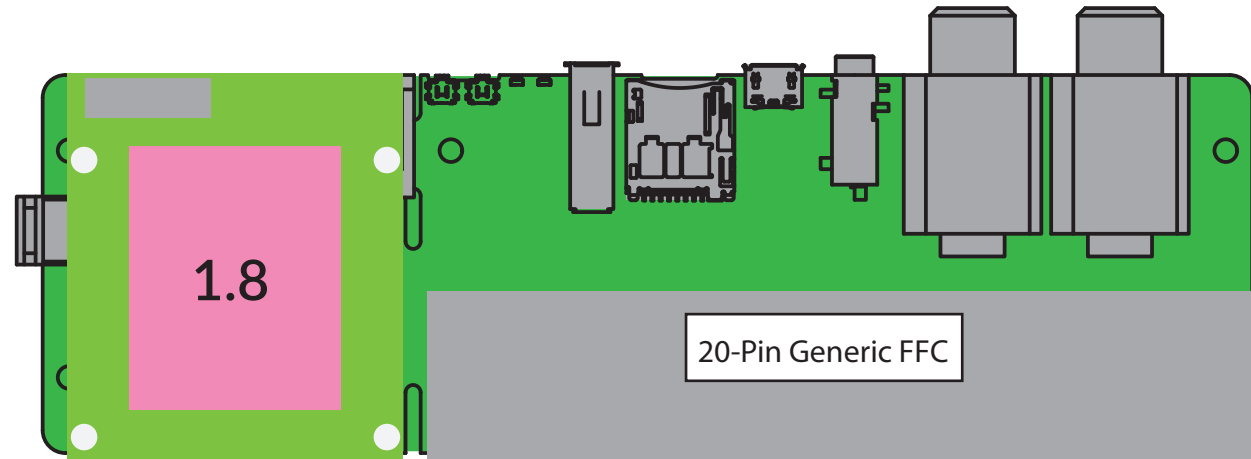

Sketching other modules to think about needs across designs

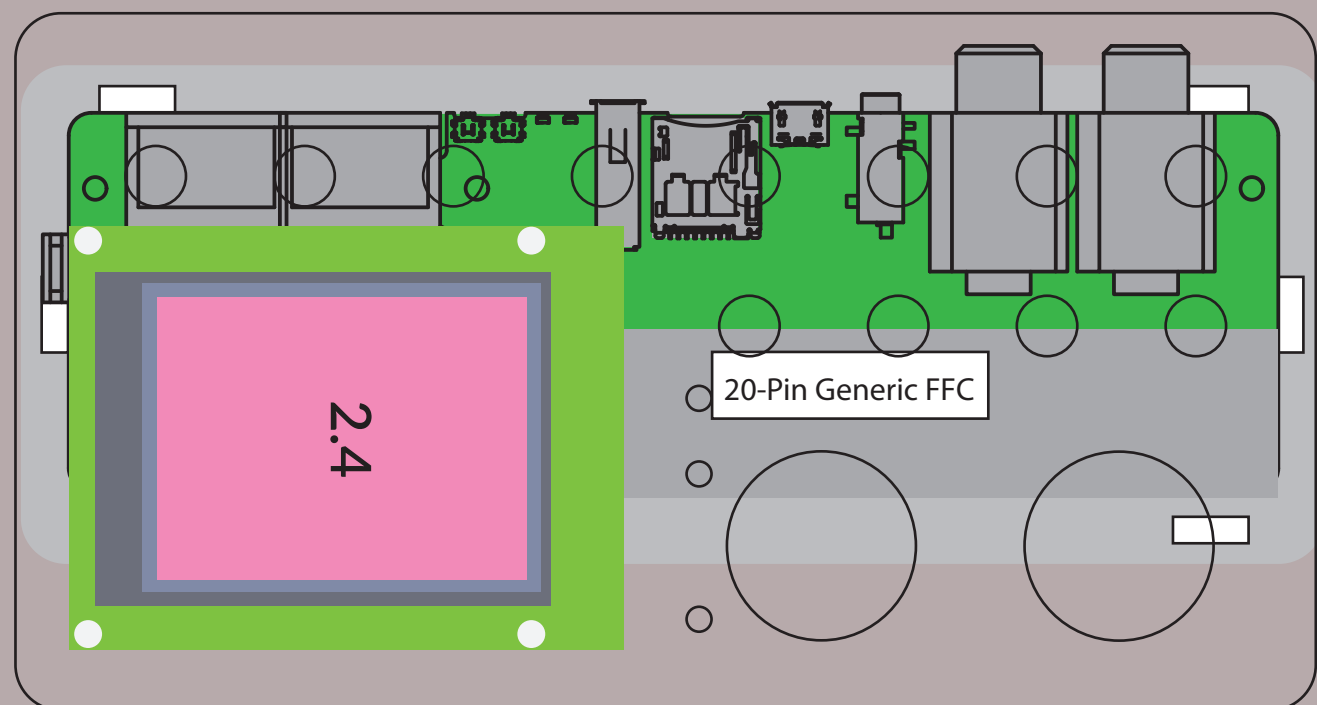

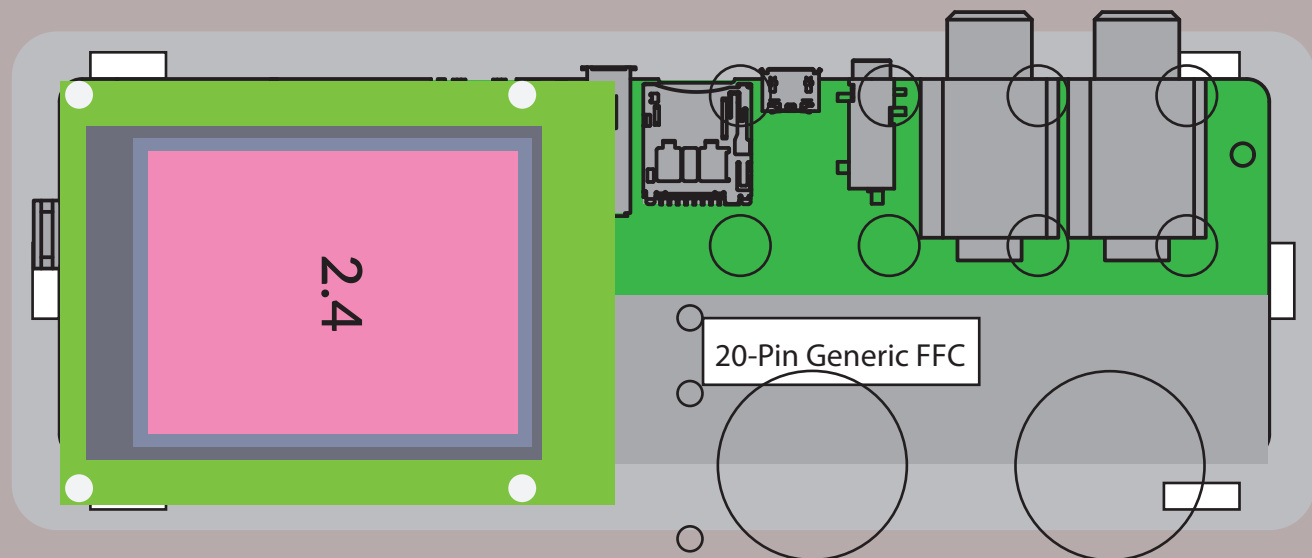

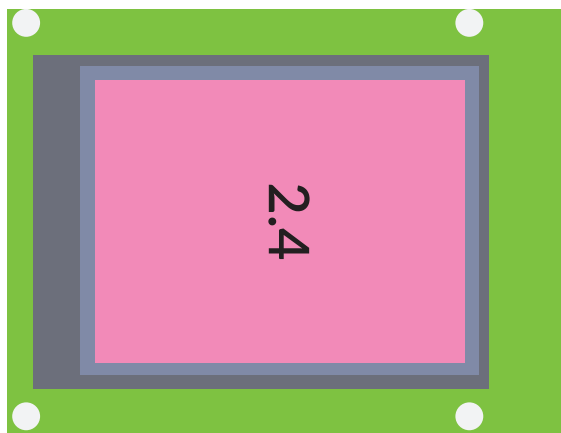

Axoloti Core Designs

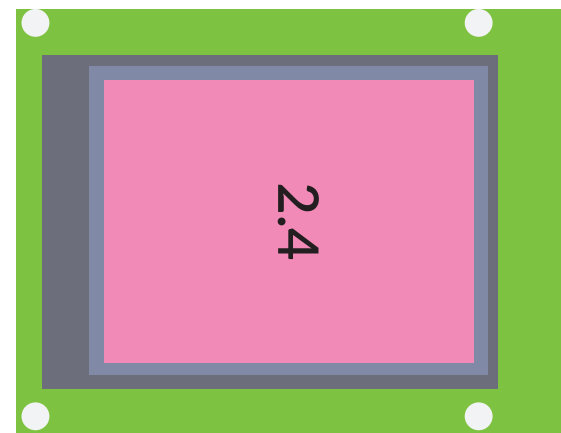

Axoloti Eats into Wanderlust market, extra work. May as well update wanderlus

ESP32

PI

Fast Boot

Less Dev Time
(Audio + Video
Built In)

Slow Boot

More expensive (3X -> 9X)

Battery

ESP32
WROVER

18550

USB

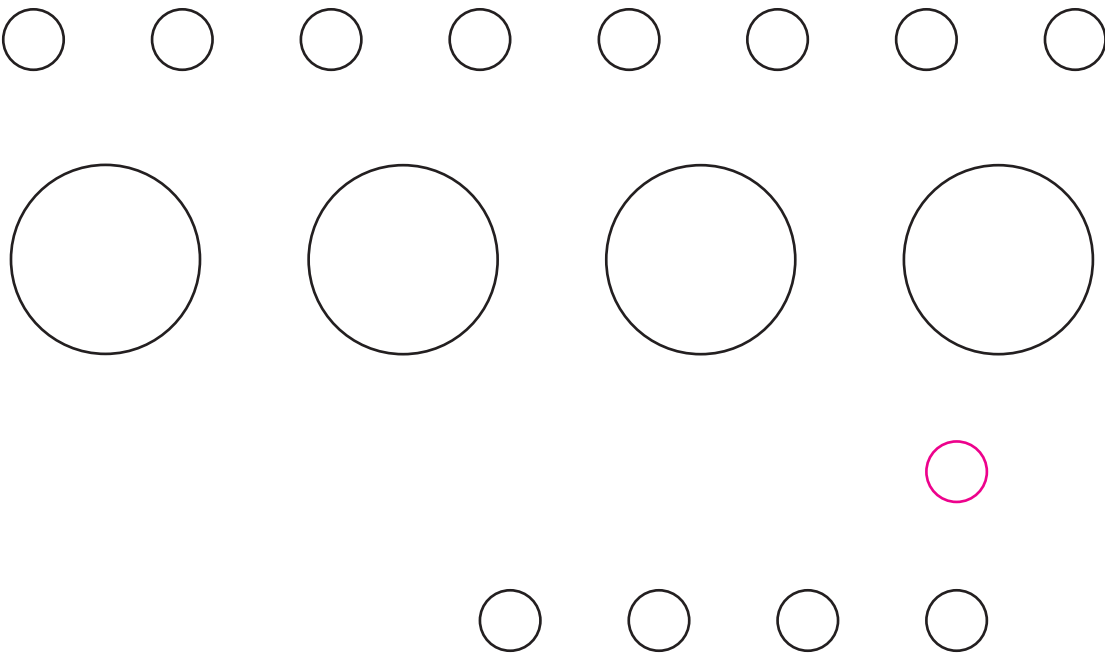

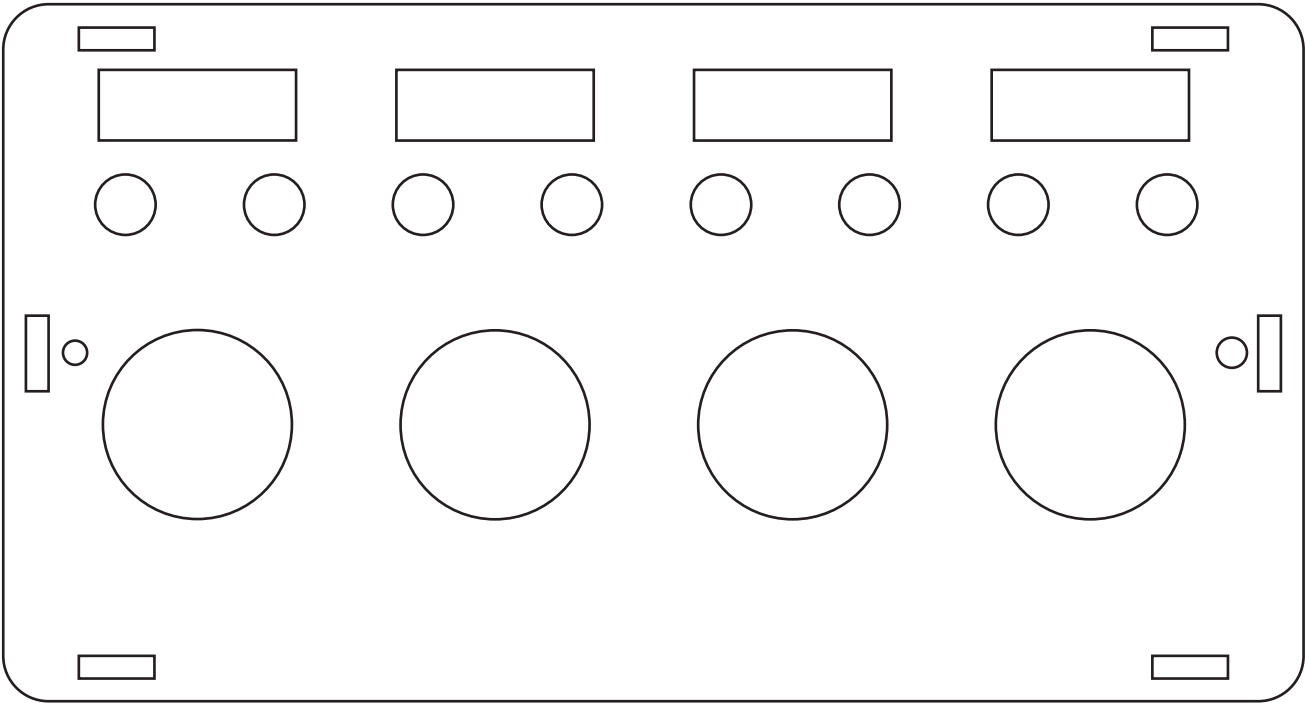

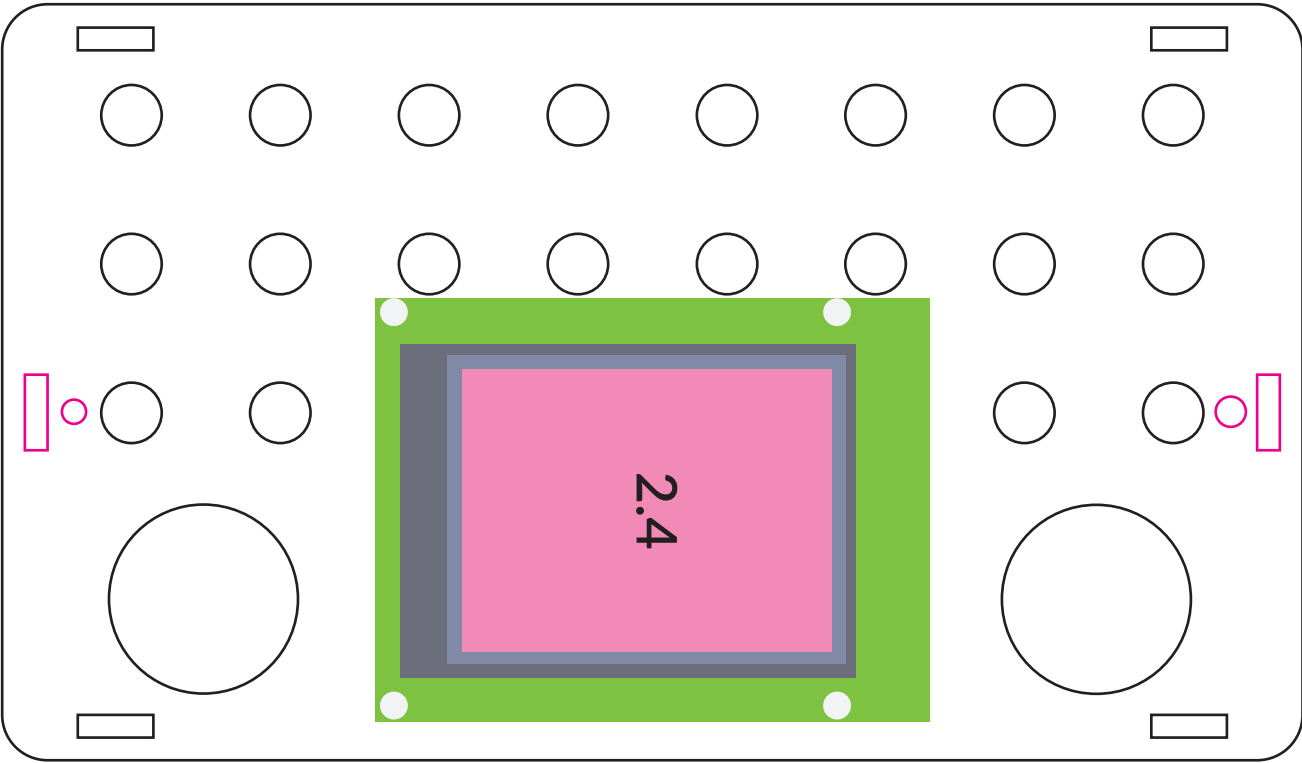

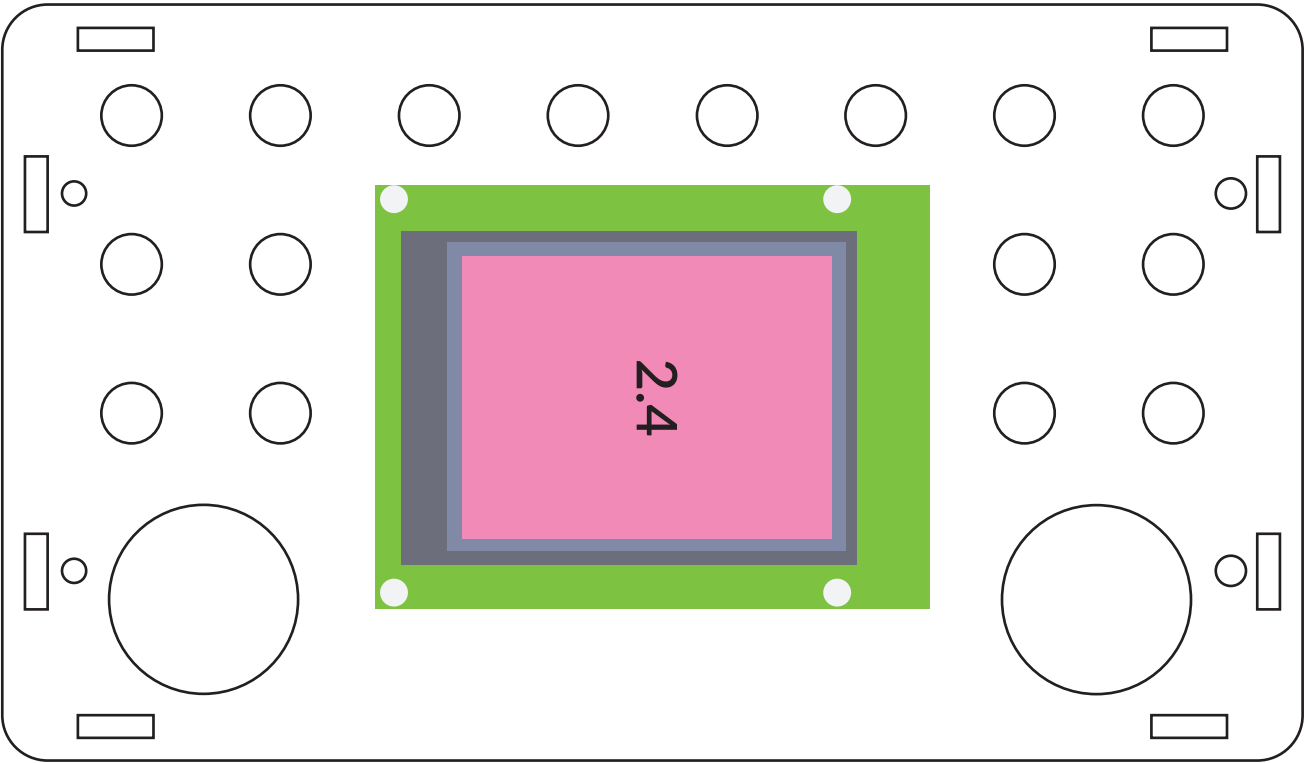

uSD

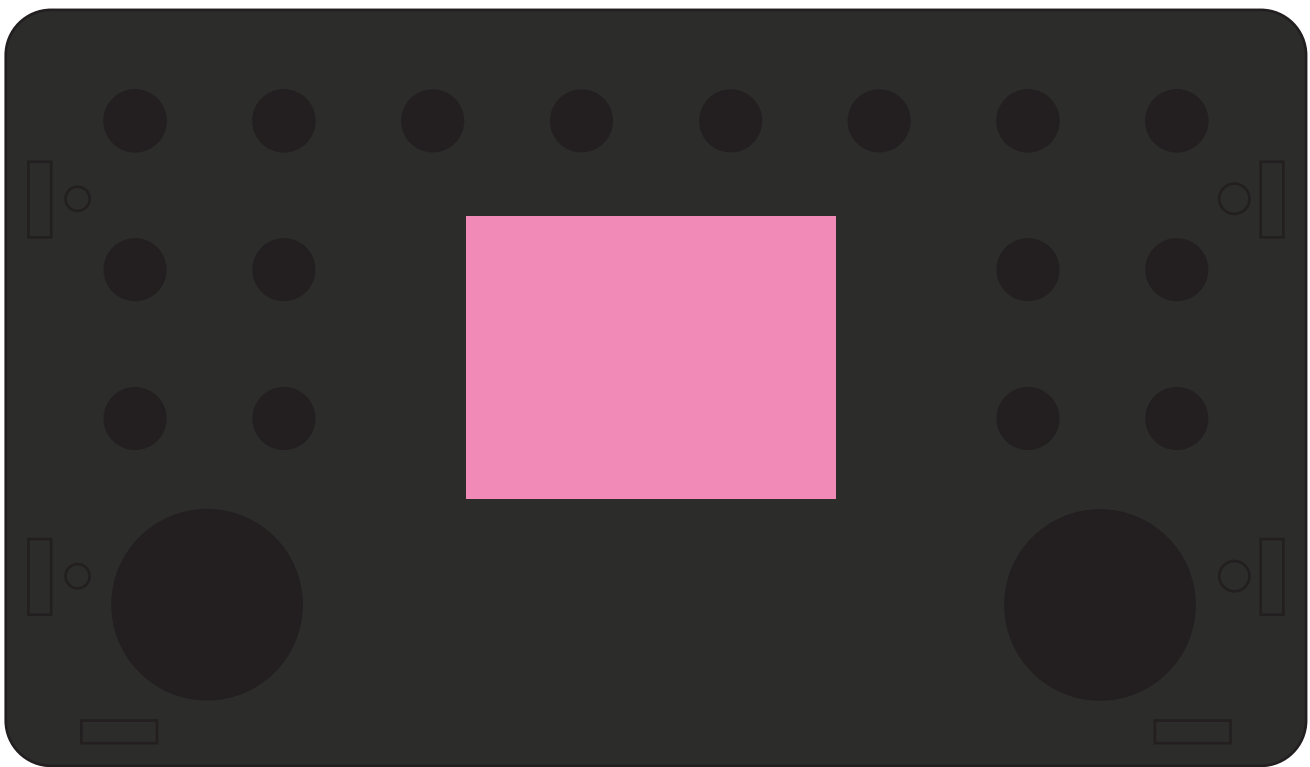

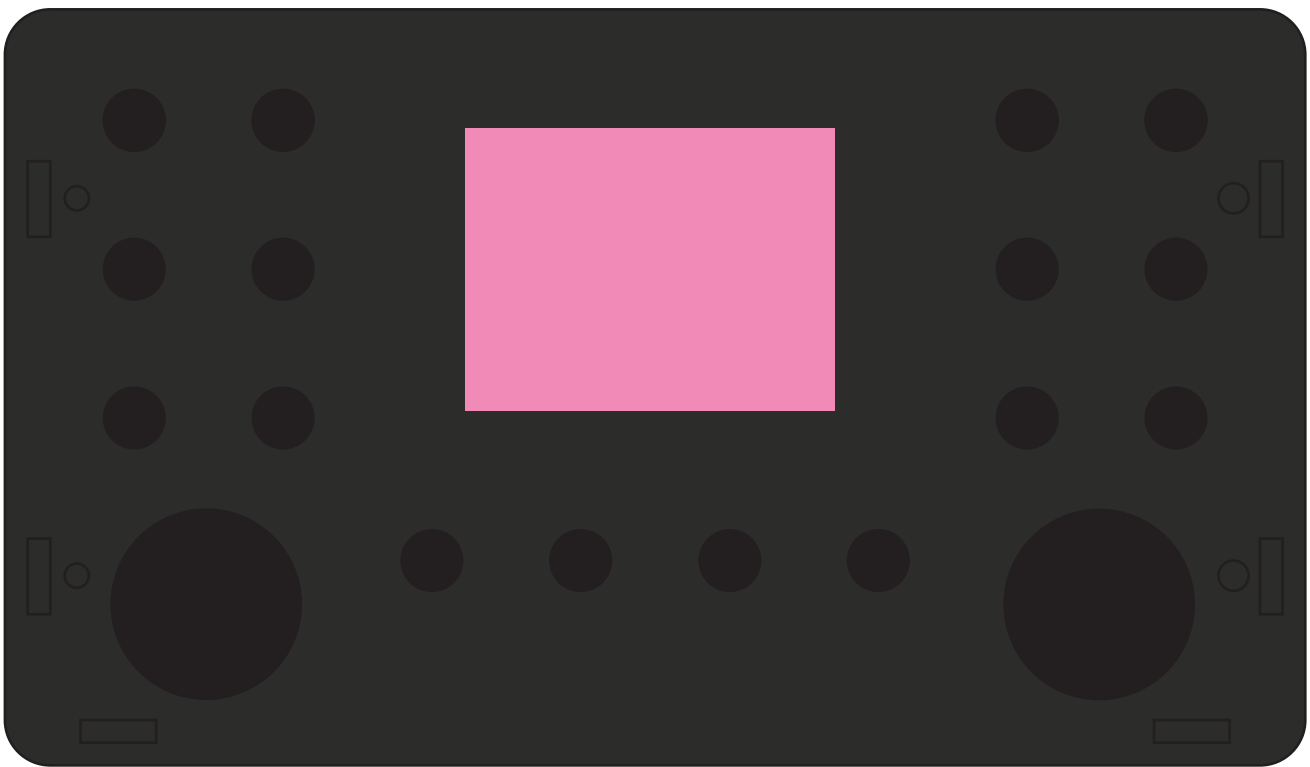

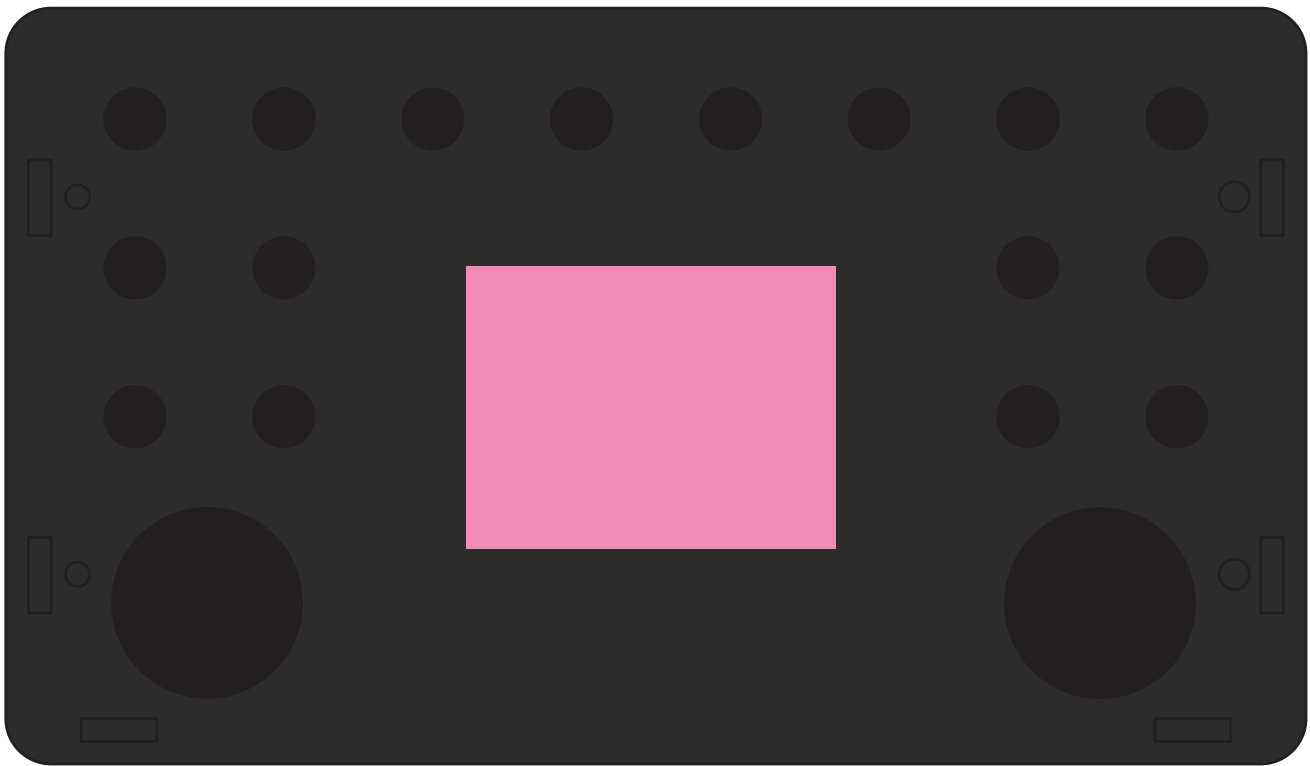

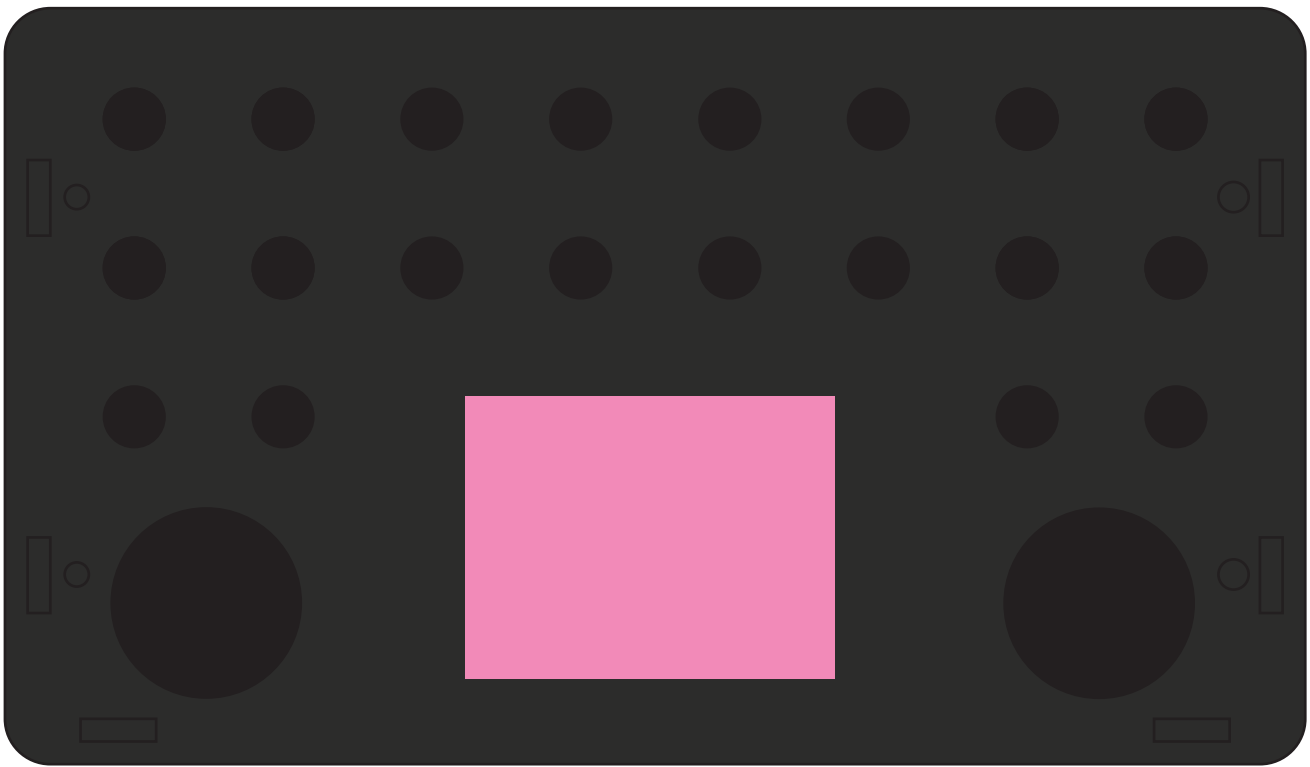

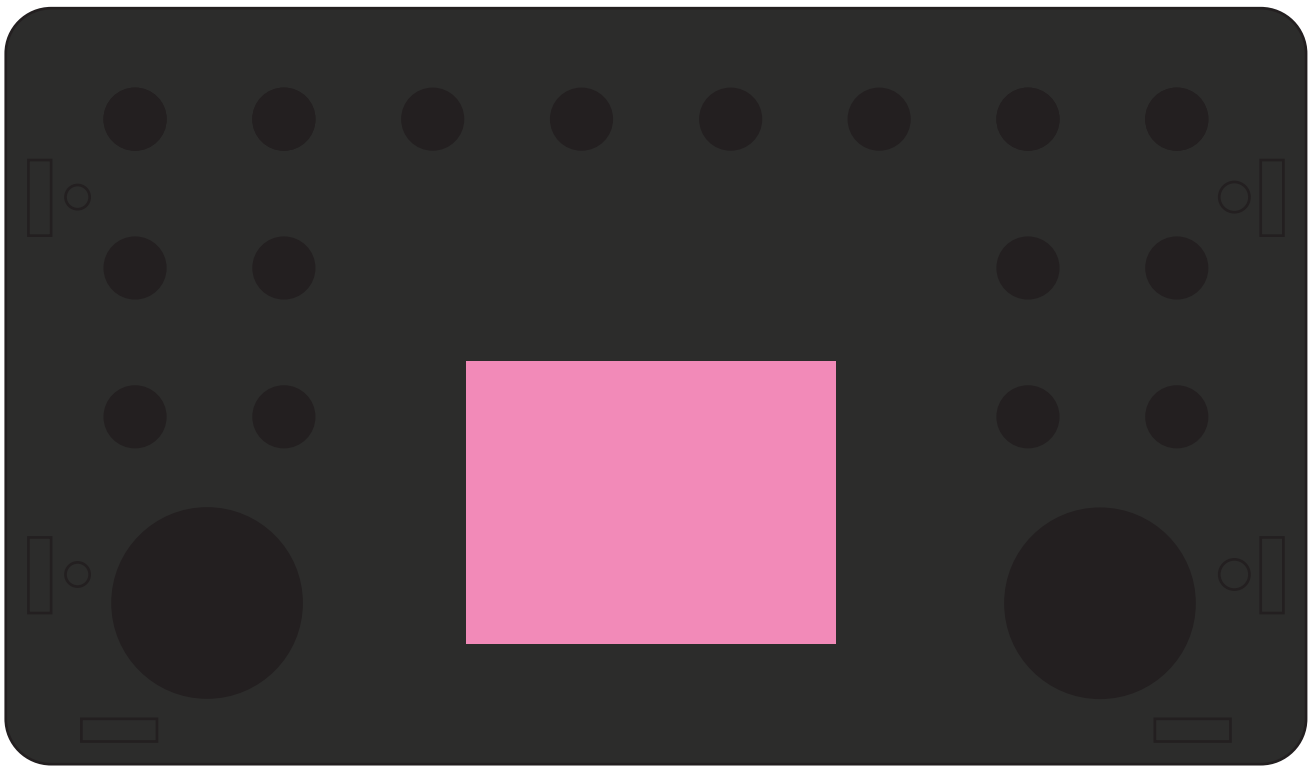

Audio Jack
