

Believotron B100

Believotron B5000

PI vs ESP32

Strategy

Audio board

Add power PCB

Believotron B5000 PI Workstation

Just the Pi

Audio board

Power / Connector Board

Add power PCB

Believotron B1000

USB-C to A

SPI to MIDI
MIDI to SPI

Believotron Pi-1000

Audio board

Power / Connector Board

Workstation

Desktop With Screen

Desktop PieWith Screen

OTS

Keytar

Use OTS frett

Add USB OTG splitter to USB A

Would need to develop a blind interface

Desktop (With Pie)

Desktop (no pie)

Consider a way to add

Add power PCB

Just the Pi

Audio board

Power / Connector Board

Keytar

Add Double-opposite kb

Keytar - Just the pie

Use OTS frett

Add USB OTG splitter to USB A

Keytar - Just the pie

Pi Screen + OTS Free range KB

Workstation

Desktop With Screen

Add Rpi 3 and W holes

Believotron B1000

Screen Mocks
